Take a Sci-Fi Journey into the Unknown in *The Seagu11 Project*

The government is about to embark on its eleventh secret project into the center of the Milky Way galaxy. Along for the ride of a lifetime is the newly selected crewmember, Dr. Michael S. Gibraltar. With many twists, T. Lee Baumann creates an exciting tale of exploration and discovery in *The Seagu11 Project*.

A landmark discovery in the Antarctic tundra has newly directed the secret space mission toward the massive black hole in the Milky Way galaxy. Before journeying to the black hole, Michael must adequately prepare himself with the proper space training and knowledge about outer space. This mission calls for the premier technology available and the best-equipped crewmembers.

With Michael's journey to the massive expanse, away from everything he knows, he is challenged with questions about his faith and his place in the universe. *The Seagu11 Project* provides gripping action with a story about space and self discovery.

Author T. Lee Baumann, MD is a medical consultant, writer, and lecturer, living in Birmingham, Alabama. He is the author of *God at the Speed of Light: The Melding of Science and Spirituality*, *Window to God*, and *The Akashic Light: Religion's Common Thread*. In this, his first novel, Dr. Baumann has enlisted the aid of university professors to add to the story's veracity and credibility. Lee Baumann enlightens as well as entertains as he takes readers on a realistic sci-fi journey to the very center of our Milky Way galaxy.

The Seagu11 Project is available in softcover (ISBN 978-1-60264-088-7) from Virtualbookworm.com, Amazon.com and Barnes and Noble.com. The book can also be ordered from most bookstores around the United States and the United Kingdom. More information can be found at ww.baumannbooks.com.
